

## **Multiple Choice Practice Paper - 5 minutes**

### **Y7 Biology - Cells and Cell Functions**

#### **Circle the correct letter for each question**

Question 1: Which of these is not in a plant cell?

- A - Glycogen
- B - Cytoplasm
- C - Cell Membrane
- D - Cell Wall

Question 2: Which of these is not in an animal cell?

- A - Glycogen
- B - Cytoplasm
- C - Cell Membrane
- D - Cell Wall

Question 3: What happens in the cytoplasm?

- A - Photosynthesis occurs
- B - Reactions take place
- C - Gives the cell its shape
- D - Controls the cell

Question 4: What happens in the nucleus?

- A - Photosynthesis occurs
- B - Reactions take place
- C - Gives the cell its shape
- D - Controls the cell

Question 5: What is the M in the acronym MRS GREN?

- A - Making
- B - Mind
- C - Movement
- D - Morning

Question 6: What is the E in the acronym MRS GREN?

- A - Excretion
- B - Enemy Recognition
- C - Effects
- D - Every cell is functional

Question 7: What is the N in the acronym MRS GREN?

- A - Nutrition
- B - New
- C - Nothing
- D - Nerves

Question 8: What is the job of Red Blood Cells?

- A - Destroy enemy cells
- B - Carry oxygen
- C - To absorb water
- D - Monitor its surroundings

Question 9: What kind of surface areas do Root Hair cells have?

- A - Large
- B - Small
- C - Wide
- D - Narrow

Question 10: What is the job of Root Hair Cells?

- A - Control the surrounding area
- B - Carry oxygen
- C - Monitor its surroundings
- D - To absorb water
